

Two stripes for quality

PROFILE II[®]

Mercedes-Benz Vito Profile Ambulance

Profile design

A versatile equipping and good ergonomics have made Profile ambulances a success. It is packed with practical details in the places where you have always wished them to be.

Ergonomical working space

All the most essential treatment equipment are reachable even by being seated. Spacious paramedic table also includes adjustment properties for oxygen and electric systems.

A pleasant care environment

You can adjust the lighting in accordance with the situation. A pleasant blue trauma light makes the patient feel more comfortable are standard features. Efficient fluorescent lights and spotlights are used working lights. The patient compartment is equipped with efficient ventilation and automatic temperature adjustment.

Reliable electrical system

Intelligent electrical system (IWS) takes safely care of the routine procedures. General functions includes a.o. monitoring of the temperature and oxygen level of the incubator, stepless ventilation control and a guard for power consumption. DIN sized operation panels are located both to the driver's cabin and patient compartment. IWS system has 24 hours overhaul and after sales services on weekdays.

Elegant looks

The design of Profile Ambulance communicates modern and efficient care. It also saves money, as the aerodynamic design reduces fuel consumption.

Profile safety

Safety is the main priority in every Profile ambulance. The feeling of the safe working environment helps you to concentrate to the most essential to the patient.

Safe sitting and standing

All Profile ambulances are designed to serve safely. You can be seated with your seat belt fastened and still reach both the patient and the most essential equipment. Holding rails in all the right places facilitate moving inside the vehicle, coming in and going out.

Safety partition options

The partition is available with a manhole or a sash window. Extra window in the partition wall increase the visibility and the lightness of the patient compartment. On patient compartment is also extra foldable seat.
